

# PARAPRO COMPONENT PACK

Commercial Product Data Sheet

---

## **Product Description**

The Parapro Component Pack contains quantities of Pro Fleece and Pro Catalyst necessary for application of one 5-kg container of Parapro PMMA flashing resin.

## **Packaging**

The Parapro Component Pack is packaged in a 5"X5"X14" cardboard box, and includes:

- One 1 ft (0.3 m) x 16.5 ft (5 m) roll of Pro Fleece.
- Two 0.1-kg bags of Pro Catalyst
- One 1-tablespoon measuring scoop

## **Storage**

Store the Parapro Component Pack in a clean, dry location. For maximum quality and safety, storage temperature should not exceed 77°F (25°C). Exposure to temperatures above 122°F (50°C) may cause hazardous decomposition of the Pro Catalyst. Shelf life is indefinite with proper storage.

## **Usage**

For application instructions, refer to the Parapro 123 Flashing System Application Instructions affixed to the lid of the Parapro Membrane Resin pail or to the Parapro 123 Flashing System Installer's Guide.
