

PRO THIXO

Commercial Product Data Sheet

Product Description

Pro Thixo is a liquid additive that increases the viscosity of Terapro Waterproofing Base Resins and Parapro Roof Membrane Resins.

Product Uses

Pro Thixo is added to the resins to increase the viscosity, allowing application on sloped surfaces without slumping or sliding.

Color

Clear.

Packaging

One-liter metal resealable container.

Storage

Store unopened in cool, dry, well-ventilated area away from heat, direct sunlight, oxidizing agents, strong acids, and alkali. Keep away from open flame or any ignition source.

Addition Rate

Pro Thixo is added to resin in incremental quantities until the desired viscosity (flowability) is achieved. The amount of Pro Thixo added should never exceed 1% (by weight of the resin).

Mixing

Add Pro Thixo to Terapro Base Resin or Parapro Roof Membrane a minimum of 20 minutes before catalyzation of the resin. Mix thoroughly and replace the resin container lid. After 20 minutes, use the resin in accordance with the Terapro or Parapro Roof Membrane Installer's Guides.

Handling

Avoid skin and eye contact and breathing fumes. Do not eat, drink, or smoke in area of use.

COMMERCIAL PRODUCT INFORMATION

Unit: 1-liter can

Packaging: 1-liter resealable metal container
