

PRO TEXTURE BEADS

Commercial Product Data Sheet

Product Description

Pro Texture Beads consist of hardened, spherical soda-lime glass beads that are used in conjunction with Terapro and Parapro Systems.

Product Uses

Pro Texture Beads are broadcast into a wearing layer of Pro Color Finish using a conventional hopper gun, and are back rolled to generate a skid resistant surface.

Color

Natural translucent glass.

Properties

Composition: Soda-lime glass
Specific Gravity: 2.45 to 2.50 g/cm³
Bulk Weight: 1.5 kg/ltr
Hardness (Mohs): 5.5
Toxicity: None (no free silica)

Packaging

Pro Texture Beads are supplied in 5-kg (11 lb) pails.

Coverage Rate

Approximately 0.002 kg/sf (2500 sf per unit)

Application

Pro Texture Beads are broadcast into a wearing layer of Pro Color Finish using a conventional hopper gun before the resin sets, and are immediately back rolled to embed the beads. Care should be taken during application to ensure that the product is uniformly applied.

Storage

Store in closed containers in a dry place out of direct exposure to the elements.

Handling

Consult the Safety Data Sheet (SDS) for additional information pertaining to this product.
