NOTES:
1. Apply granular surfaced flashing sheets in parapet flashing cement or set cement. Set cement is reduced for vertical application. Stairless sheet flashing sheets.
2. The parapet and metal work shown depict shop fabrication and shop assembly. These components should be designed, fabricated, and installed according to factory instructions. See manufacturer's instructions and specifications.
3. Acceptable industry practices, standards, and procedures.

Adhesive Applied Flashings
Paradine 2/30 FR - Non Ventilated Substrate
Parapet with Plywood Sheathing
