

Siplast® Paratech® Glass SA Series

Self-Adhesive SBS utility and base ply solutions engineered by Siplast.

Paratech Glass SA Series

PARATECH GLASS SA

Paratech Glass SA is an ASTM D1970 rated utility sheet with a proprietary elastomeric SBS modified bitumen blend, a high quality fiberglass reinforcement, and an ultra-tacky self-adhesive bitumen bottom layer designed for use as a vapor retarder or dry-in membrane.

PARATECH GLASS BASE SA 2.5

Paratech Glass Base SA 2.5 is ASTM D6163/CSA 123.23-15 compliant base ply with a proprietary elastomeric SBS modified bitumen blend, a high quality fiberglass reinforcement, and an ultra-tacky self-adhesive bitumen bottom layer designed to be the 2.5mm base ply in a Paratech membrane system.

Features & Benefits

EFFICIENCY

Peel-and-stick application accelerates base ply installation time without using heat welding, cold adhesive, or hot mopping asphalt.

SIPLAST SOLUTIONS

Paratech Glass SA roofing plies are produced with a proprietary elastomeric SBS modified bitumen blend, a high quality fiberglass reinforcement, and an ultra-tacky self-adhesive bottom layer wrapped up in a cost-effective solution to meet you where you are.

VERSATILITY

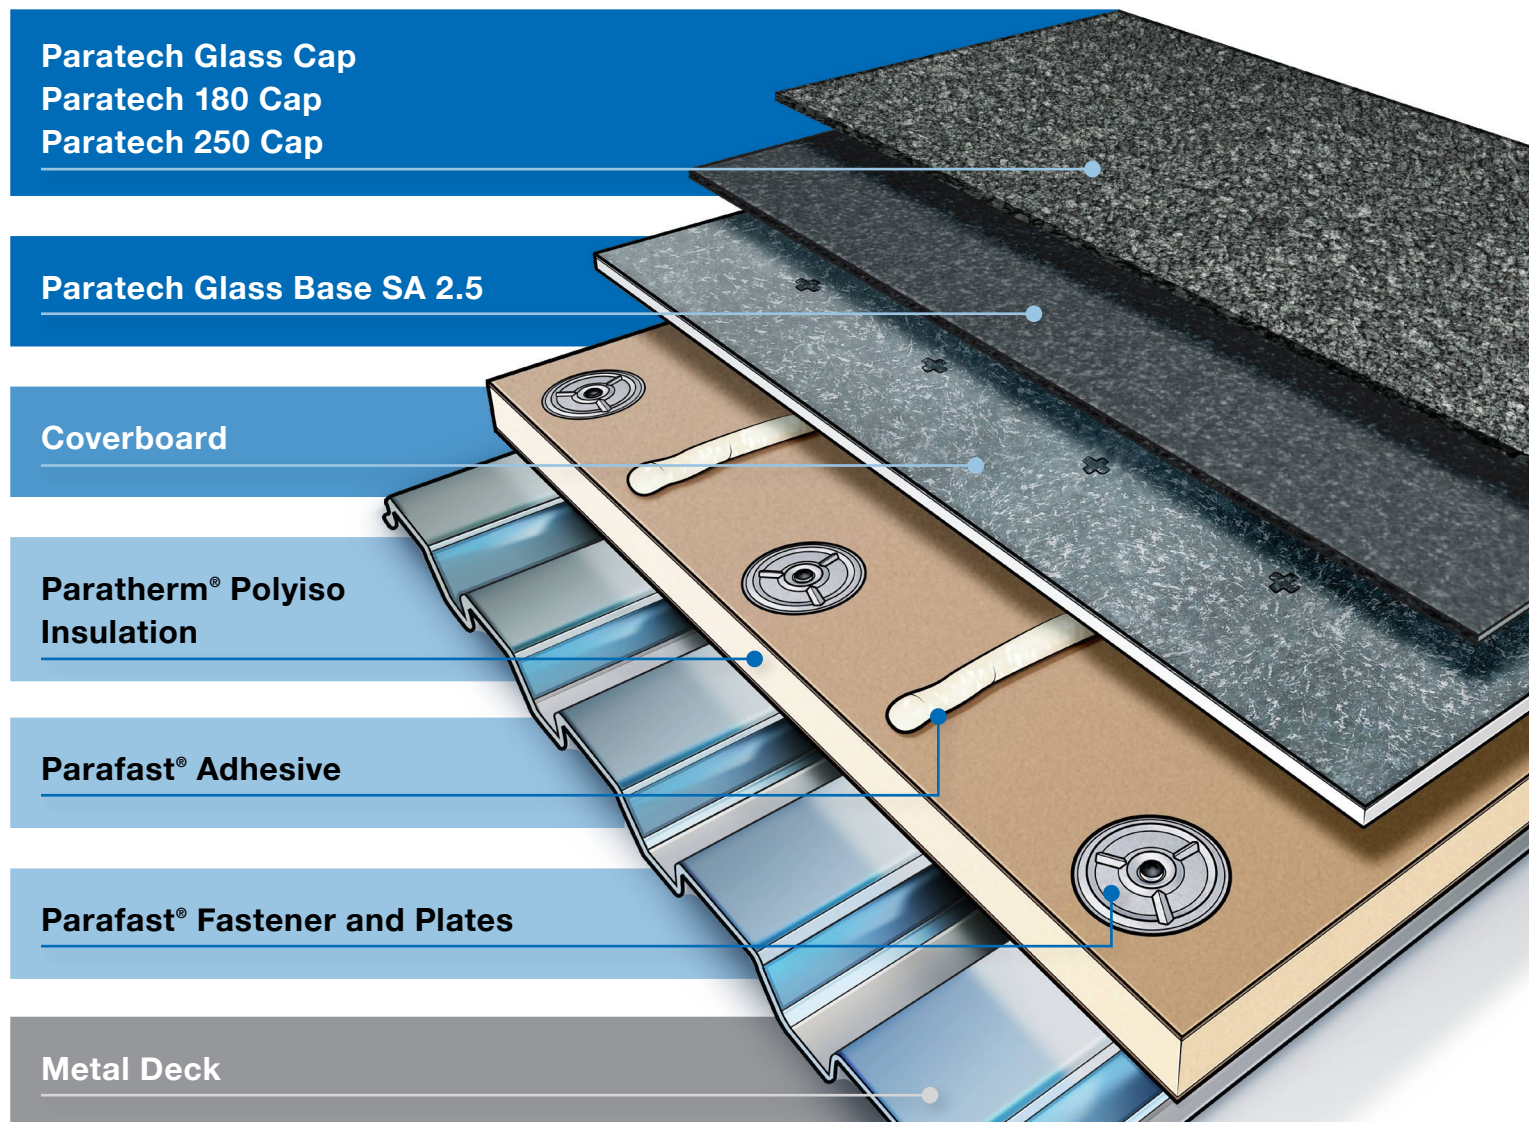

Vapor retarder, flashing interply, dry-in membrane, or base ply: Paratech Glass SA sheets are effective in a variety of applications to control air, vapor, and water.

TRUSTED PERFORMANCE AND SUPPORT

Siplast is the renowned industry leader with the reputation for manufacturing top-of-the-line roofing solutions. Paratech is backed by Siplast's extensive expertise and commitment to being "with you every step of the way" by delivering the high quality products and strong warranties and guarantees that have made Siplast synonymous with the best.

Paratech SBS Modified Bitumen Membrane System

Classified by UL in accordance with ANSI/UL 790. Refer to UL Product iQ for specific assemblies.

FM Approved - Refer to RoofNav.com for specific assemblies.
