

Paratherm™ Tapered Polyiso Insulation

Save time and labor when field-fabricating crickets with 4' x 8' Q-panels.

With you every step of the way™

Introducing Paratherm™ Tapered polyiso insulation 4' x 8' Q panels for use when field-fabricating tapered crickets.

Larger panels can result in faster installation, decreased number of panels handled, fewer cuts, and less waste. Product is available in 20 and 25 psi, GRF or CGF facer, and NH formulations.
