

Parking Garage Surfacing & Waterproofing Systems

Topical Waterproofing

Decks and Ramps Over Occupied/Conditioned Spaces

Terapro Waterproofing Systems

- Liquid-applied PMMA resin-based reinforced system
- Resilient – monolithic, durable, water/UV resistant
- Full-surface adhesion and creates an impermeable membrane*
- Fast-curing - ready for traffic in approximately 3 hours when installed properly
- Provides a skid resistant surface that exceeds ADA standards based on ASTM E303.
- Can be applied in temperatures as low as 32 °F

Terapro Pro Fleece Reinforced VTS

- Pro Color Finish
- Terapro VTS Quartz
- Terapro VTS Resin/Filler
- Terapro VTS Base Resin
- Pro Fleece
- Terapro Base Resin
- Pro Primer T
- Concrete Substrate

*Terapro Base Resin - Water Vapor Transmission (Including surfacing components): 0.011 perms based on ASTM E96

Terapro Pro Grid Reinforced VTS

- Pro Color Finish
- Terapro VTS Quartz
- Terapro VTS Resin/Filler
- Pro Primer W
- Pro Grid
- Concrete Substrate

A parking garage is a uniquely challenging structure. It must protect cars while withstanding damaging emissions from those same vehicles. It must endure cyclic weathering and mechanical damage. And it must be utilitarian and low maintenance, while also providing a favorable first impression for customers. Siplast has solutions that meet all of these needs.

Concrete Protection

Decks and Ramps Over Unoccupied Spaces

Terapro Protection Systems

- Liquid-applied PMMA resin-based system
- One convenient package
- Fast-curing - ready for traffic in approximately 3 hours when installed properly
- Resistance to typical vehicular fluids
- Provides a skid resistant surface that exceeds ADA standards based on ASTM E303
- UV Stable
- Can be applied in temperatures as low as 32 °F
- Utilizes substrate-penetrating primers

Terapro Unreinforced VTS

- Pro Color Finish
- Terapro VTS Quartz
- Terapro VTS Resin/Filler
- Pro Primer T
- Concrete Substrate

Terapro 250

- Terapro 250 Color Resin and Aggregate
- Concrete Primer
- Concrete Substrate

Split Slab Waterproofing

Decks and Ramps Over Occupied/Conditioned Spaces

Teranap Waterproofing System

- Torch-applied, two-ply SBS-modified bitumen system
- Compatible with Parapro Liquid-Applied Flashing
- Option for waterproofing under concrete or asphalt
- Retains its elasticity through the rigors of movement
- Homogeneous multi-ply redundancy

Teranap

- Concrete or Asphalt Topping
- Drainage Mat
- Teranap Cap Sheet
- Paradiene 20 TG Base Sheet
- PA-917 Primer
- Concrete Substrate

Parapro Waterproofing System

- Liquid-applied PMMA resin-based reinforced system
- Monolithic waterproofing system
- Two-component fast curing technology
- Exceptional chemical resistance
- Can be applied in temperatures as low as 32 °F

Parapro

- Concrete or Asphalt Topping
- Drainage Mat
- Parapro Resin
- Pro Fleece
- Parapro Resin
- Pro Primer T
- Concrete Substrate

With you every step of the way

Terapro Finish Colors

*Terapro 250 is available in 6 colors.

Terapro & Terapro VTS are available in all 16 colors.

NOTE: Actual texture and color may vary. Please request a finish sample before making final selections.

Select Contractors

Quality products are meaningless without a quality contractor. Siplast waterproofing systems are installed exclusively by Siplast Select Contractors. These independent businesses have met the qualifications of one of the best contractor certification programs in the industry - ours.

Guarantee & Warranty

Siplast products offer proven quality and performance. We offer comprehensive guarantee or warranty protection based on system design, backed by one of the leading manufacturers of high-performance commercial roofing and waterproofing materials in North America.

*Siplast warranties and guarantees do not provide coverage against chemical exposure. Refer to siplast.com for more information on warranty and guarantee coverage and restrictions.
