Siplast With you every step of the way

MONARFLEX® TEMPORARY ENCLOSURE ATTACHMENTS

Commercial Product Data Sheet

Monarflex[®] Temporary Enclosure Attachments are designed to attach Monarflex Super T or Scaffband sheeting to the structure being enclosed. Monarflex Anchor Straps are heavyduty EPDM rubber straps and high strength plastic fasteners used for high performance situations. Monarflex Flexities are a strong and flexible, bungee-style attachment for medium duty wind resistance applications.

The Self-Adhered Grommet includes a peel and stick adhesive, which can be applied onto the sheeting membrane where desired.

Contact Siplast for information on approved product uses.

PRODUCT INFORMATION

Application

Refer to the appropriate Siplast Installers Guide for detailed application information.

Storage and Handling

All Siplast Monarflex products should be stored on a clean, flat surface and be stored in a dry place out of direct exposure to the elements. Materials stored on the job site during application should be kept on a pallet in a location that will protect the materials from rain or construction damage.

See product packaging and the Safety Data Sheet for specific information on the safe handling of this product.

Current copies of all Siplast Commercial Product Data Sheets & Safety Data Sheets are posted on our website at www.siplast.com
