

Parasolo® PVC KEE Vent Boot

Commercial Product Data Sheet

Description:

Parasolo® PVC KEE Vent Boot is a factory built flashing accessory made from Siplast Parasolo® PVC KEE membrane and is used for flashing cylindrical penetrations. Parasolo® PVC KEE Vent boots are compatible with both Parasolo® PVC and PVC KEE roof systems and are designed to be heat welded directly to the roof membrane. One standard size accommodates 1 in. to 6 in. (25.4 mm – 152.4 mm) diameter pipes and conduits. Vent Boots come with stainless steel clamping rings for the top of the penetration.

Contact Siplast for information on approved product uses.

Uses:

Pipe Flashing
Parasolo® PVC Accessory
Parasolo® PVC KEE Accessory
