

# PARADIENE® 20

## Commercial Product Data Sheet

Paradiene 20 is the modified bitumen base ply of the Paradiene 20/30 System. Designed for use in homogeneous multi-layer modified bitumen roof membrane systems, Paradiene 20 consists of a lightweight random fibrous glass mat impregnated and coated with high quality styrene-butadiene-styrene (SBS) modified bitumen blend and is surfaced with a mineral parting agent.

Contact Siplast for information on approved product uses.

USES: **BASE PLY** FLASHING REINFORCING SHEET

FLASHING REINFORGING SHEET				
Standards	ASTM D6163 Type I, Grade S; CSA A123.23-15 Type A, Grade 3			
Roll Length	Min: 50 ft (15.24 m)			
Roll Width	Avg: 39.4 in (1.0 m)			
Coverage	1.5 Squares (150.7 ft²) (14.0 m²)			
Coverage Weight Per Square	Min: 62 lb (3.0 kg/m²)			
Laying Lines	3 in (76.2 mm) & 4 in (102 mm) Line Color: White			
Top Surfacing	Mineral Parting Agent			
Back Surfacing	Mineral Parting Agent			
Product Options	RoofTag			

### PRODUCT INFORMATION

#### **Application**

Refer to the Siplast Technical Guide for detailed application information and slope limitations. Paradiene 20 is lapped 3 inches (76.2 mm) side and end.

## Storage and Handling

All Siplast roll roofing products should be stored on end on a clean flat surface. Rolls should not be dropped on ends or edges or stored in a leaning position. Deformation resulting from these actions will make proper installation difficult. All roofing products should be stored in a dry place out of direct exposure to the elements and should not be double stacked. Material should be handled so that it remains dry prior to and during installation.

See product packaging and the Safety Data Sheet for specific information on the safe handling of this product.

#### **Packaging**

Pallet: 41 in x 48 in (104 cm x 122 cm) wooden pallet

Rolls Per Pallet: 25

Pallets Per Truckload (Typical): 18 Minimum Roll Weight: 93 lb (42.2 kg) Max Pallet Weight (Typical): 2500 lb (1134 kg)

#### Listings, Approvals, & Certifications

Classified by UL in accordance with ANSI/UL 790. Refer to UL Product iQ for specific assemblies. FM Approved - Refer to RoofNav.com for specific assemblies. Meets or Exceeds CSA A123.23..

Current copies of all Siplast Commercial Product Data Sheets & Safety Data Sheets are posted on our website at www.siplast.com

Cyclic Fatigue
