

PARASOLO™ PVC SPLIT PIPE BOOT

Commercial Product Data Sheet

Parasolo PVC Split Pipe Boots are factory formed and fabricated from reinforced Parasolo PVC and are used for flashing round and conical penetrations. Split boots can be used to flash penetrations that cannot be overlaid with a closed boot. Boots include a stainless steel clamp to facilitate termination at the top of the boot. Three sizes are available: 1" - 2", 3" - 5" and 6" - 8".

Contact Siplast for information on approved product uses.

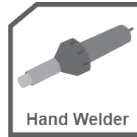

USES: PARASOLO PVC ACCESSORY

Color	White
For Pipe Diameters	1" – 2" (25.4 mm – 50.8 mm) 3" – 5" (76.2 mm – 127 mm) 6" – 8" (152.4 mm – 203.2 mm)

PRODUCT INFORMATION

Application

Refer to the applicable Siplast Technical Guide and Siplast PVC Detail Manual for detailed information on application of Parasolo PVC Split Pipe Boots. Parasolo PVC Split Pipe Boots can be used in conjunction with both Parasolo PVC and PVC KEE membrane systems.

Storage and Handling

All Siplast roofing products should be stored on a clean, flat surface. All roofing products should be stored in a dry place out of direct exposure to the elements. Material should be handled so that it remains dry prior to and during installation.

See product packaging and the Safety Data Sheet for specific information on the safe handling of this product.
