

PRO BASE SA

Commercial Product Data Sheet

Pro Base SA is a high performance self-adhesive SBS-modified bitumen base ply specifically designed for use in Parapro and Paraflex Membrane Systems. Pro Base SA consists of a lightweight random fibrous glass mat impregnated and coated with high quality styrene-butadiene-styrene (SBS) modified bitumen. The unique top surface is factory coated with a proprietary Syntan® acrylic coating. The back surface is coated with a self-adhesive bitumen later specifically formulated for optimum adhesion in low-slope membrane applications, and it is lined with a high strength polyolefin release film.
